

RCP

Relation Control Protocol

Authenticated rules for an ongoing relationship.

HS2 establishes the channel.
Adjacent · direct · E2E

RCP governs its relationship rules.
Relationship policy and traffic keys have separate lifetimes.

01 The message header selects one operation

0x01 DECLARE Announce a rule.	0x02 PROPOSE Seek agreement.	0x03 CONDITION Set a continuity requirement.	0x04 RESULT Return a section outcome.
--	---	---	--

Silence never means acceptance.

RECEIVED acknowledges a declaration; it does not establish agreement.

02 Sections define the rule

0x0001 Key lifecycle	0x0005 Carrier binding
0x0002 Rekey schedule	0x0006 Discovery policy
0x0003 Resource reports	0x0100 Member route intent
0x0004 Drain policy	0x0101 Discovery lane bind
